Subject: New H&SS Warrant Design
Broadcast to All Staff from Systems Operations

In a broadcast sent July 20 announcing the new H&SS warrant design, we mentioned future revisions to the *Notification of Change* section. The revisions have been completed. The *Notification of Change* section of the warrant has been renamed *Reminder About Reporting Changes* and the text has been revised to reflect our Prospective Budgeting changes. A copy of the new H&SS warrant design is provided in the attached document.
